SUCCESSSES

SUCCESSFUL resolution 100% in favor of client in class litigation brought by parties impacted by a crude oil spill covering 25,000 acres (10,000 hectares) of farmland encompassing 2 towns and bordering on a natural preservation area

INFORMATION REPORTING so effective that the EPA and state environmental agencies chose to rely and report on our operational data for over 4,000 samples and over 3,500 addresses

Fast RECOVERY, by client, of over \$50 million (100%) within 2 months of the date incurred - made possible by effective use of online, real time, transparent, proprietary information systems

COMMENDATION by a Federal Judge for GRS's swift and accurate execution of a complex class action settlement agreement involving over 10,000 commercial, residential, business and personal claimants

FORGED such durable relationships with civil authorities that no directly-impacted local government has pursued litigation against a responsible party for whom GRS has been engaged
